

Morning (AM) Courses

Musical Theatre	<p>"5-6-7-8!" Musical Theatre is a course designed to bring out the triple threat in the young performing artist. By combining acting, singing and dancing, you will work towards staging a 15-minute production to be performed at the last day gala.</p> <p>Teachers: Jeff Pinsky & Ceri Howe</p>
Junior Crime Scene Investigators	<p>Have you ever wanted to learn how the pros solve crime? This interactive and hands-on course will show you different techniques and methods used to analyze crime scenes and narrow down suspects! Join our group and be ready to get your hands dirty as we dive into the science behind crime scene analysis!</p> <p>Teacher: Lisa Leitner</p>
(FULL) Magic & Dragons: Welcome to the Dungeon!	<p>Are you a warrior? A master of magic? Or perhaps you dream of being a daring princess who could save the world....Welcome to the world of fantasy gaming! Dragons, elves, wizards and clerics are all yours to explore...to become! With this course you will learn all the different ways fantasy gaming allows your imagination to explode. You will play board games, card games, computers games, art activities, storytelling role play games and more. Enter the world of Magic & Dragons!</p> <p>Teacher: Peter Chan</p>
(FULL) Create-A-Bot: Unleash the Power of Robotics!	<p>Discover the amazing potential of robotics! Get with your team to design, build and program the robot of your dreams, and get ready to face various types of challenges in cooperative or competitive situations. Get involved, strengthen your skills in logic, math, programming, creativity and problem solving, and become a robo-master!</p> <p>Teacher: Alexandre Gueudry</p>
(FULL) Junior Chefs: Around the World and Back in Time	<p>Have you ever wondered what the knights ate in the Middle Ages or what pirates ate while at sea searching for treasure? This course will allow you to explore the world and travel back in time through your taste buds. Each junior chef will have the opportunity to learn about the magic behind international culinary arts through cooking! You will have a first-hand experience creating our own culinary masterpieces. Each day, take home samples of your creations for everyone to taste!</p> <p>Teacher: Melissa Dykeman</p>
(FULL) Art Urbain – Street Art	<p>Have you ever noticed the beautiful art pieces on building walls in Montreal and Québec city? Have you ever seen the projections on the parliament buildings in Ottawa or in the Quartier des spectacles in Montreal? This is the urban canvas that is available to you as artists. In this class you will create an art piece that will remain on a building, learn how projections for events are made and create your own spray paint work of art. Come and use your creativity to learn about and contribute wonderful urban art.</p> <p>Teacher: Kim Gromko</p>

Afternoon (PM) Courses

A Passion For Fashion	<p>This popular course introduces children to the basics of sewing. We provide each camper with their own sewing machine which they'll use to make their own decorative pillow, pyjama pants and more! Campers will go on field trips, meet professionals from the fashion industry and showcase their own creations at the end of camp fashion show!</p> <p style="text-align: right;">Teacher: Elizabeth Ballantyne</p>
Robotics & Coding	<p>Ready to geek out! Robots and coding are fun ways of turning curious minds into great scientific minds! Want to learn how to build a website? How to create your own games? How to program robots to follow your every command? This course will inspire campers to create with computers and other technologies – all the while building 21st skills.</p> <p style="text-align: right;">Teacher: Peter Chan</p>
Introduction to Play Production	<p>Children in this program will learn the basics of how a play is staged, from how to play a character, to learning parts of the stage, incorporating costumes and props, and working as an ensemble. Using a script written exclusively for the camp, children will present a short play at the end of the two-week session.</p> <p style="text-align: right;">Teacher: Jeff Pinsky</p>
(FULL) The DJ Department	<p>Ever wonder what it takes to be a DJ? Do you love music, art, and technology? If you answered yes to any of these questions, then this course is for you! So come and join the party and learn how to mix, beat match, scratch and so much more with your own DJ controller. Campers will perform at lunch and at the final gala too!</p> <p style="text-align: right;">Teacher: Jonathan Rist</p>
(FULL) Mad Scientists	<p>Do you like to create your own experiments? Would you like to take a class where making a mess is part of the goal? You'll make electricity with fruit, lava lamps with household materials, something mysterious called "elephant's toothpaste" - all the while learning about chemistry, electricity, physics, the environment and so much more!</p> <p style="text-align: right;">Teacher: Lisa Leitner</p>
(FULL) Junior Chef: Baking Bites of Sweetness	<p>Want to have your cake and eat it too? This this baking class is for you. In Baking Bites of Sweetness you will roll up your sleeves and make delectable delights for your friends and family all on your own. Come learn to be a pro in the kitchen by learning how to decorate cakes, make pastries and to measure and mix your way to delicious treats. Oh and don't forget to save room for dessert because you will get to taste your scrumptious creations!</p> <p style="text-align: right;">Teacher: Melissa Dykeman</p>
